

# Assessment Blueprint

Having completed both sections of the assessment matrix select suitable examples and complete the blueprint to give a coherent aligned set of learning, assessment and feedback decisions across both the face to face and online elements for your case study.

Learning Outcomes	Learning Level	Learning Activities		Assessment		Feedback
		F2F	Online	F2F	Online	
Apply knowledge in a specified subject area to provide solutions to realistic problems						
Identify and differentiate between competing solutions to problems						
Derive key lessons from processes and provide rational conclusions
